## Introduction

The mentioned parts in this catalogue are service parts as well as accessories.

Due to this fact the following must be observed:

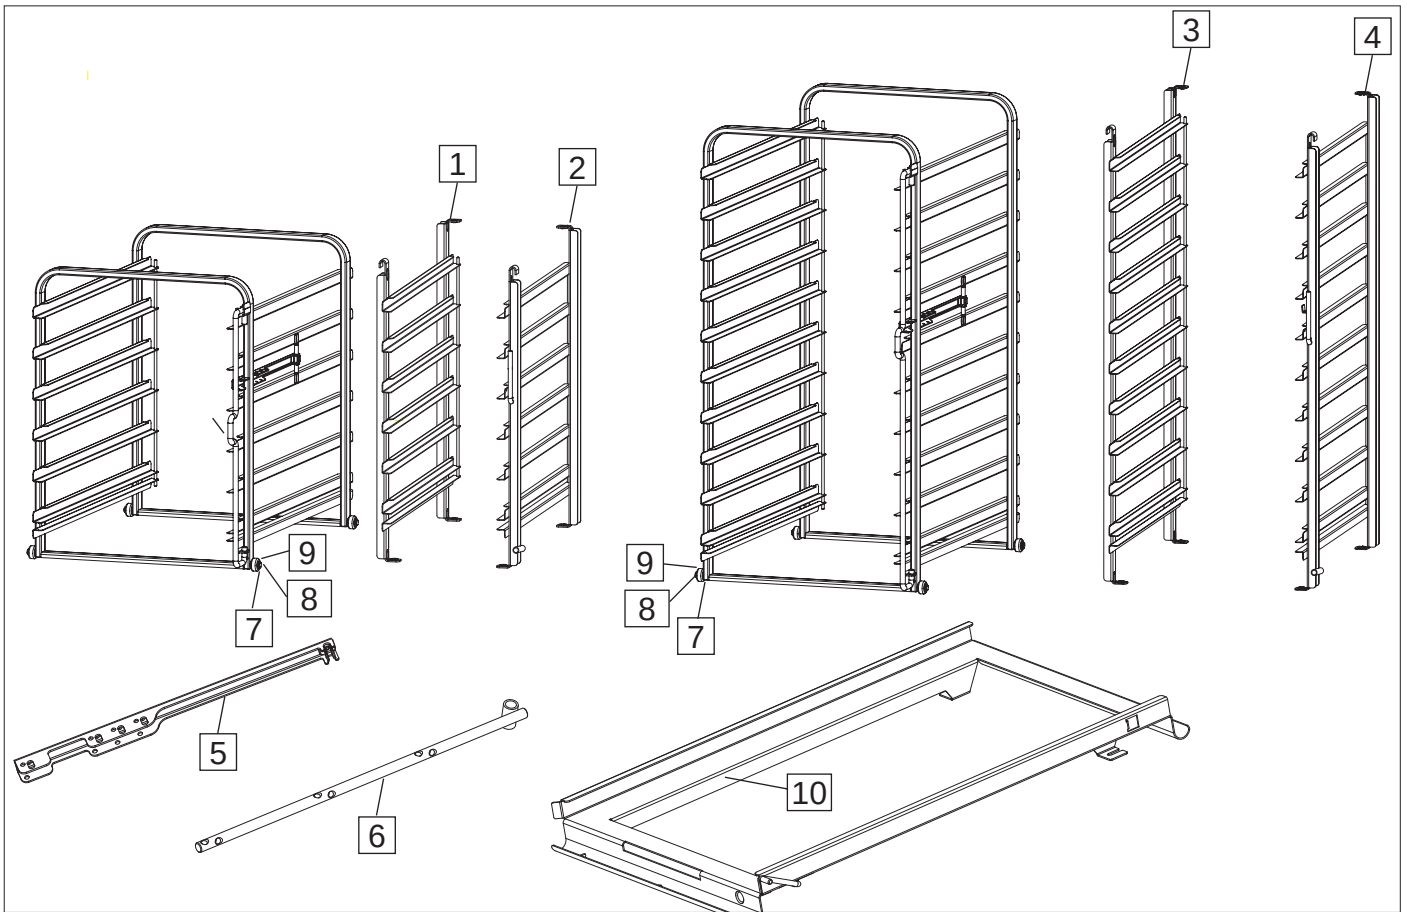

1. In a separate column in the following pages service parts are marked with „SP“ and accessories are marked with „Acc“.
2. When placing orders for service parts or accessories the same previous procedures must be observed. Service parts must be ordered in the service parts department, accessories must be ordered at the accessory department.
3. Possible discounts comply with existing discounts for service parts respectively accessories.

## Descaler pump

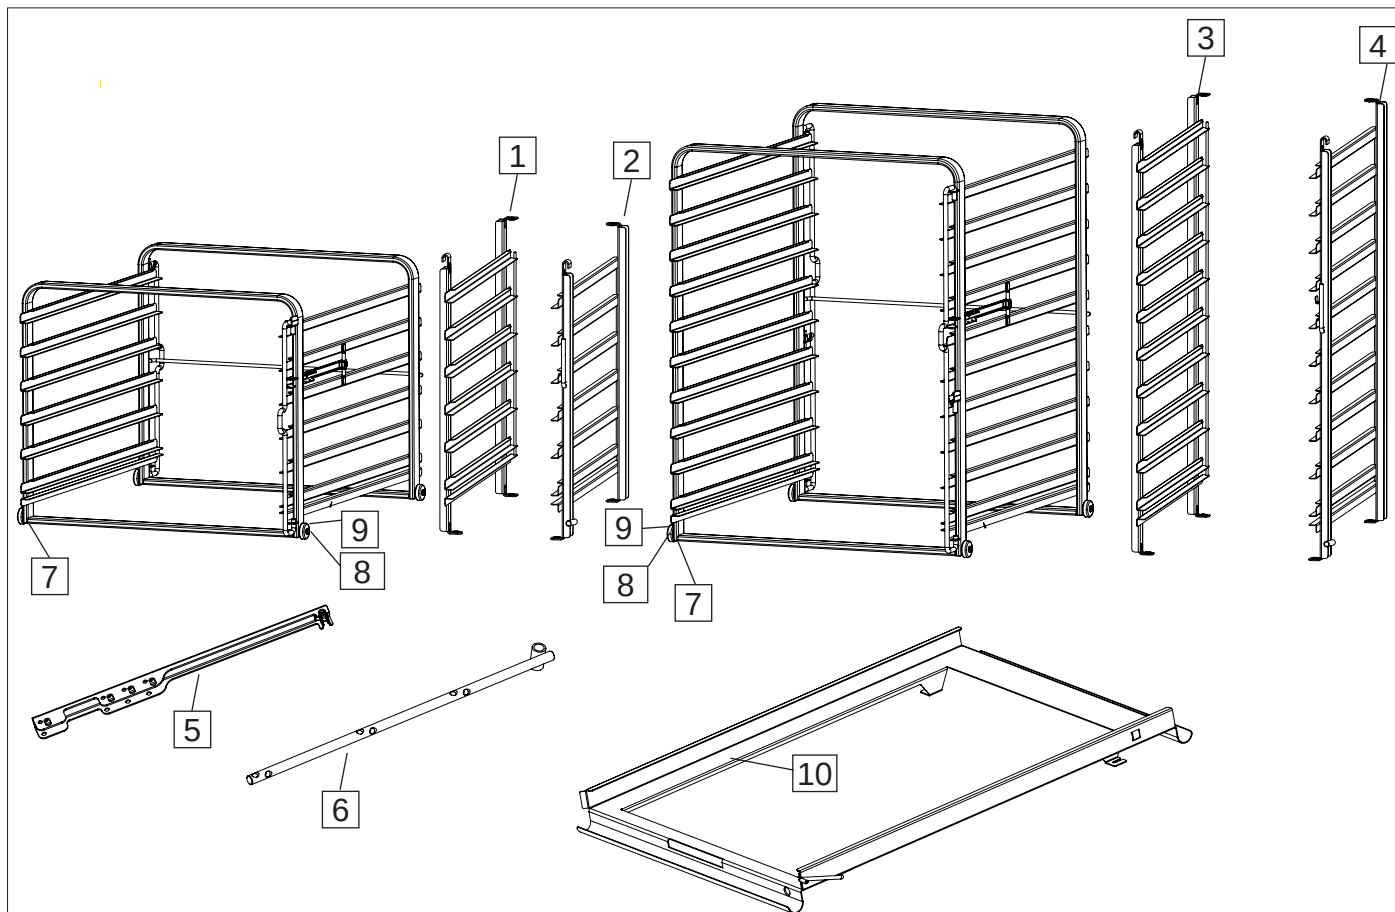

| Pos. | Parts description     | Article Number | Service part (SP)<br>Accessory (Acc) |
|------|-----------------------|----------------|--------------------------------------|
| 1    | Descaler pump (230V)  | 60.70.409      | Acc                                  |
| 2    | Nozzle                | 60.72.288      | SP                                   |
| 3    | Silicone hose 1800 mm | 60.72.289      | SP                                   |
| 4    | Silicone hose 1300 mm | 60.72.290      | SP                                   |
| 5    | Main switch           | 60.72.291      | SP                                   |

## Mobile oven racks, hinging racks 61 and 101

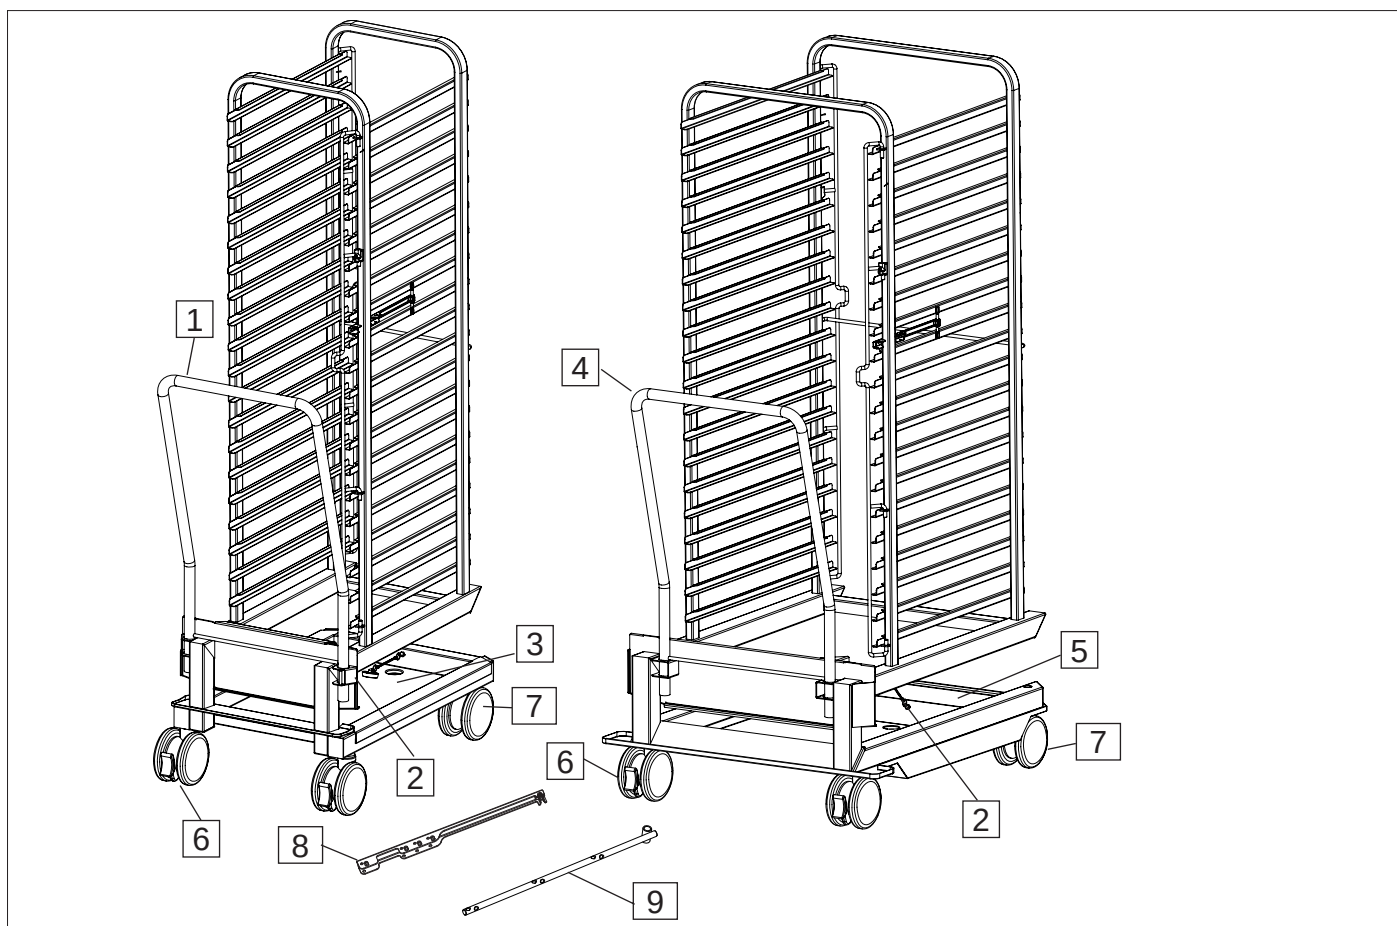

| Pos. | Parts description                                        | Article Number | Service part (SP)<br>Accessory (Acc) |
|------|----------------------------------------------------------|----------------|--------------------------------------|
| 1    | Hinging rack left, model size 61                         | 60.61.241      | Acc                                  |
| 2    | Hinging rack right, model size 61                        | 60.61.242      | Acc                                  |
| 3    | Hinging rack left, model size 101                        | 60.11.364      | Acc                                  |
| 4    | Hinging rack right, model size 101                       | 60.11.365      | Acc                                  |
| 5    | Positioning aid for CT-probe as of 06/2007               | 60.71.022      | SP                                   |
| 6    | Positioning aid for CT-probe up to and including 05/2007 | 60.60.574      | SP                                   |
| 7    | Rollers                                                  | 60.60.009      | SP                                   |
| 8    | Screw for rollers                                        | 1008.0753      | SP                                   |
| 9    | Disc spring for rollers                                  | 1205.0362      | SP                                   |
| 10   | Run in rail for mobile oven racks                        | 60.61.226      | Acc                                  |

## Mobile oven racks, hinging racks 62 and 102

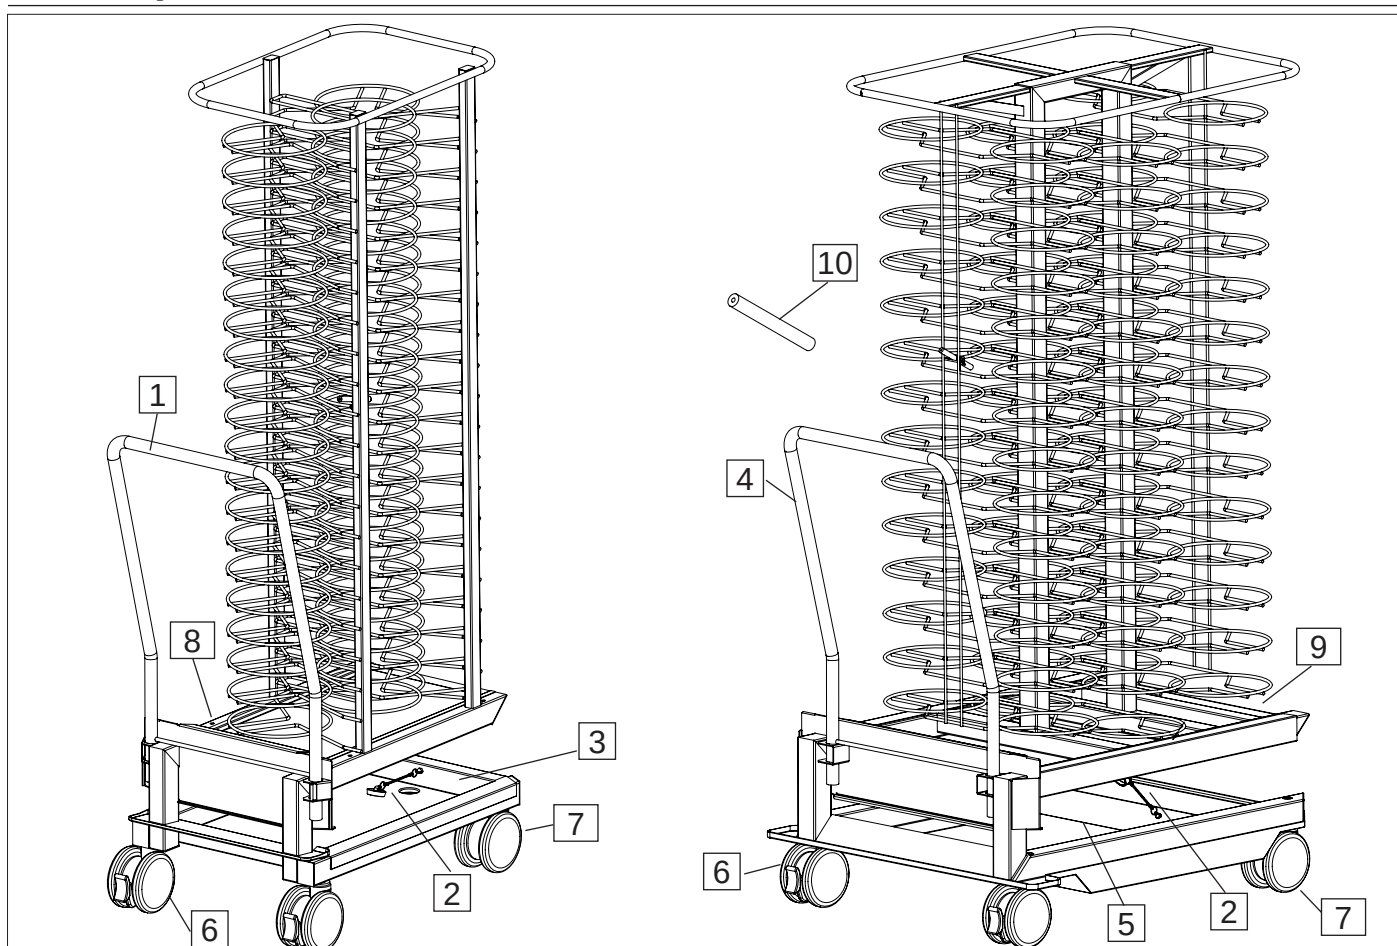

| Pos. | Parts description                                        | Article Number | Service part (SP)<br>Accessory (Acc) |

This diagram shows the assembly components for a mobile unit. The main unit (1) is shown with its base and wheels. The exploded view includes the following parts:

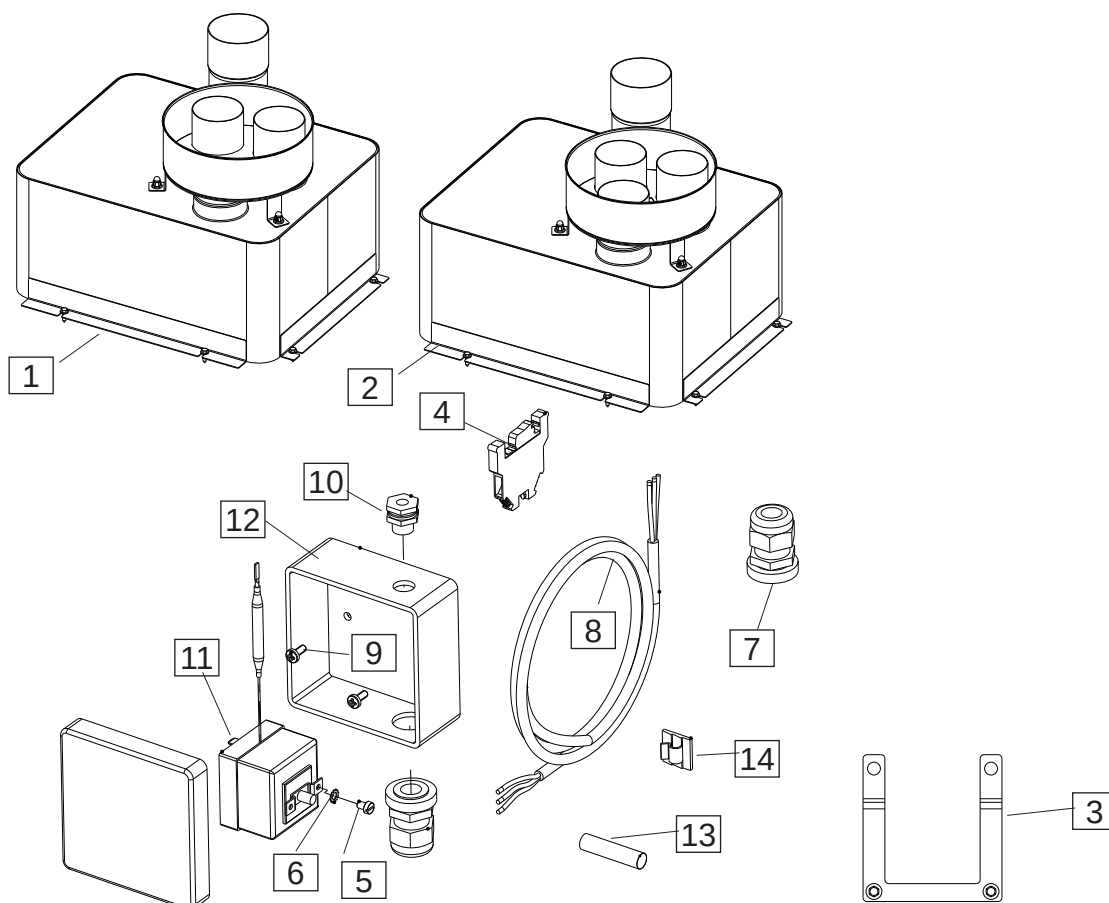

- 1: Main unit base and frame.
- 2: A bracket or support arm.
- 3: A small pin or fastener.
- 4: A wheel or castor.
- 5: A long horizontal bar or handle.
- 6: A small rectangular component, possibly a control panel or display.
- 7: A small screw or fastener.
- 8: A rectangular plate or base for the control panel.
- 9: A small component, possibly a switch or button.
- 10: A small circular component, possibly a knob or dial.
